Selected References in Trauma and Orthopaedics

Selected References in Trauma and Orthopaedics

Selected References in Trauma and Orthopaedics is an essential study tool for all those preparing for the orthopedic FRCS (Tr & Orth). This work provides a selection of references from the Trauma and Orthopedic literature, which will be of interest to the surgeon preparing for the Intercollegiate Specialty Board examination, and similar end-of training examinations in other countries. It will also be of interest to examiners and trainers who are preparing their trainee colleagues for the examination, as well as providing a literature basis for their own practice. Selected References in Trauma and Orthopaedics presents the classical papers underlying current practice as well as recent publications which have brought about innovation. The references are presented with a brief summary which allows the reader to access a literature review, with the use of online resources. Compiled by examiners, Selected References in Trauma and Orthopaedics will provide candidates with an awareness of the literature which will boost grades and enhance learning ability.
