Theory of fiction: Henry James

Henry James

Theory of fiction: Henry James Henry James

Comprised of more than 250 selections from Henry James's stories about writers, his critical and speculative essays, his *Notebooks*, Prefaces, and letters, this collection brings together for the first time, in a single, systematic volume, all the important passages in James's work which have implications for or ideas about his theory of fiction. The result is the most comprehensive, exhaustive, and innovative volume of fictional theory ever published; in many ways it is the consummation of James's contribution to letters.

In a masterful introductory essay, James E. Miller Jr., presents James's theory of fiction in outline; he also contributes brief introductions to each of the seventeen chapters, summarizing the major points. Abundant guides direct the reader to subjects and sources.
