There's a lot we haven't heard about the murder of Princess Diana! Belzer & Wayne are back, and with a big conspiracy and cover-up too. Did you know that: Diana specifically predicted that she would be assassinated. This book documents it very clearly in Diana's exact words.. Stories that the driver was drunk were fabricated; he was not. Contrary to the official explanation, Diana's car was not closely followed by photographers and that was not the cause of the crash. And she was not pinned in the vehicle, but it took emergency crews an incredibly long 1 hour, 40 minutes to get Diana to a nearby hospital; and that's why she bled to death as a result. The evidence trail and eyewitness interviews prove that the Mercedes was diverted into the tunnel by vehicles that blocked its exit. That the Mercedes had been stolen and had its computer chip changed out. The crash-scene analysis is indicative of an assassination technique that is detailed specifically. Diana always wore her seat belt, but hers was defective on the night of the crash. And in yet another "coincidence," the regular traffic cameras in the tunnel were not functioning at the time of the crash, so there was no recording of it as there would normally be. Diana's body was immediately embalmed—even though that was illegal—which made it impossible to determine if she was pregnant. This book documents all the factual evidence like it's never been done before.
