Genealogical Encyclopedia of the Colonial Americas. a Complete Digest of the Records of All the Countries of the Western Hemisphere

Christina K. Schaefer

Genealogical Encyclopedia of the Colonial Americas. a Complete Digest of the Records of All the Countries of the Western Hemisphere Christina K. Schaefer

The immense body of records of the colonial period in the Western Hemisphere presents a serious challenge to the researcher--in some cases even a stumbling block. In this work Ms. Schaefer has undertaken a systematic examination of the records to show the researcher where to find the most important genealogical records of the period and how to access them, all within the framework of a single encyclopedic volume. Equally important, she has defined the various classes of records in each country, identified as many of them as is practicable in a book of this size, provided historical background and brief sketches of the records themselves, added a description of the principal holdings of the major repositories of each country, and has interwoven selected reading lists throughout. The reader will appreciate, of course, that the subject matter is vast, covering the colonial records of all the Americas, from Latin America to the Caribbean and from the original Thirteen Colonies to Canada and New France, so of necessity the author has been at pains to be as comprehensive as possible. In the end, she has put together a magnificent reference work, one that will guide all researchers, beginners and professionals alike, to the most direct and reliable route to the colonial records of the Western Hemisphere. The range of the book is so remarkable that even the most seasoned researcher will find it breathtaking.
