If designed properly, a healthcare interior environment can foster healing, efficient task-performance and productivity, effective actions, and safe behavior. Written by an expert practitioner, Rosalyn Cama, FASID, this is the key book for interior designers and architects to learn the methodology for evidence-based design for healthcare facilities. Endorsed by the American Society of Interior Designers, the guide clearly presents a four-step methodology that will achieve the desired outcome and showcases the best examples of evidence-based healthcare interiors.
