## **Financial Accounting in an Economic Context** Jamie Pratt

A valuable resource for any business professional, this book shows how performance metrics available from the financial statements, shareholder value creation, and the firm's market value are all tied together. It also explores earnings management, including the use of discretion by management in the preparation of the financial statements to cast a favourable picture of the financial performance and condition of the firm. Readers will then delve more deeply into the methods used to account for operating, investing, and financing transactions.
