**Who's Afraid of Charles Darwin?: Debating Feminism and Evolutionary Theory** Griet Vandermassen  
Why should feminism and the biological sciences be at odds? And what might be gained from a reconciliation? In *Who's Afraid of Charles Darwin?* Vandermassen shows that, rather than continuing this enmity, feminism and the biological sciences—and in particular evolutionary psychology—have the need and the potential to become powerful allies. Properly understood, the Darwinian perspective proposed in this volume will become essential to tackling the major issues in feminism.
