The Well-Crafted Argument Fred D. White, Simone J. Billings

Incorporating new articles, expanded commentary, and the most current MLA and APA citation models, the fifth edition of THE WELL-CRAFTED ARGUMENT guides students through the process of writing effective arguments across the disciplines. The two-part structure of this rhetoric/reader includes a complete pedagogical apparatus--with coverage of critical reading strategies, as well as writing, researching, and documenting a topic--and an anthology of readings grouped into nine thematic clusters. In-depth instruction, combined with real student writings, engages students and helps them discover their own voices. The text's visual emphasis and the authors' practical skill-building approach are enhanced with a new full-color format. Each chapter in Part I ends with a "Summary," "Checklist," and "Writing Projects," while each cluster in Part II ends with "Connections Among the Clusters," "Writing Projects," and "Suggestions for Further Reading." These sections encourage students to apply what they've learned and go beyond the classroom if a topic is of particular interest to them. In addition to guidance on drafting and revising arguments, the authors provide a variety of composition strategies, including freewriting, outlining, and shared reading. A new chapter on "Arguing Across the Disciplines" provides strategies for arguing effectively when writing in a variety of majors.
